# ShipHAZ

Hazardous Materials Shipping Compliance

Ship Your HAZMAT Goods Stress-Free with a Parcel Shipping Software that Keeps You Compliant

Shipping hazardous materials can be tricky with countless laws and regulations to navigate. Eliminate unnecessary steps from your HAZMAT process and take the burden of compliance away so your team can focus on their businesses.

Our ShipHAZ solution provides companies running any ERP system an easy way so that your shipments are always compliant. It is designed to comply with CFR and IATA regulations to generate all required hazardous material forms and labeling, Code Tracking, and error validations.

Avoid fines as high as $100,000 with ShipHAZ.

Deliverables

- International Air Transport Association (IATA) and Code of Federal Regulations (CFR) compliant document and label creation
